Bottom Fabrication (Scale 1:1)

The diagram illustrates the bottom fabrication of a PCB. It features a large rectangular area representing the PCB, with various components and dimensions indicated. A central circular feature is labeled with a diameter of 20.50. A 30° angle is shown, and a 3x 120° arc is indicated. The layout includes numerous small rectangular components, some labeled with numbers like 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100. The components are arranged in a grid-like pattern, with some larger components and many smaller ones. The diagram is labeled 'Bottom Fabrication (Scale 1:1)' and 'aeris_pcb Fabrication Document'.

Bottom Fabrication (Scale 1:1)

All dimensions are in millimeters unless otherwise specified.

The drawing shows the bottom layer of a PCB. It features a central circular area with a crosshair. Surrounding this are various mounting pads, vias, and traces. A 30-degree angle is indicated for a specific feature. A dimension of 20.50 is shown for a distance. A 3x120-degree arc is also present. The scale is 1:1.
